This month's presentation

**Single Lot Site Development – Best Practices for compliance with Local
Ordinances and Bylaws**

GIS Tools and Layers to assist to obtain compliance

Thomas DiPersio, PE

Has served as City Engineer in Marlborough since 2016. Leads a staff of 10 engineers and support personnel who are responsible for the review and approval of all development projects in the City, as well as the design, bidding, and construction management of over 10 million dollars of public infrastructure projects each year. Prior to this was a private consulting engineer and land surveyor for over 20 years, specializing in civil site design projects throughout Massachusetts, ranging from single family house builds to large-scale commercial and residential developments. Was also Assistant Director of Public Works for the Town of Hudson in the mid 1990's. Registered Professional Engineer and Professional Land Surveyor in the Commonwealth of Massachusetts.

Nathaniel Bowen, GISP

GIS professional with extensive experience within a municipal government. Proficient in ESRI Arc GIS products as well as practices and concepts of Geospatial Sciences. Complete GIS Coordination for the municipality. Also manages enterprise tools for the delivery of geospatial info to municipal employees and the general public via online mapping services utilizing ArcGIS Online. Work experiences include a wide variety of GIS cartographic project work and geographic analysis as well as GIS implementation and administration. Strong passion for public service with over 20 years of GIS experience in a variety of municipal, utility and private organizations.
