This month's presentation

ACCA Residential Design Overview

ACCA Residential Design Procedures are not only required by code, but offer the industry time tested, peer-reviewed procedures for sizing, selecting, and designing comfort equipment.

- *Learn what information is needed to complete an ACCA Manual J, Residential Load Calculation Site Survey*
- *Learn the sizing limitations put forth by ACCA Manual S for traditional residential equipment*
- *Learn how to apply the principles of ACCA Manual D, Residential Duct Design*

Verifying Residential Load Calculations for Building Permits

ACCA Manual J v8 Load Calculations are a Building Code Requirement across the country. When you pull a building permit, what information do you need to provide? What should the Building Inspector be looking for? What allowances are made to consider the load calc is accurate?

- *Learn the Code Reference for Residential System Design Requirements*
- *Discover the Examiner's Review Form and supporting documents needed when applying for a building permit for HVAC replacement or installation.*
- *Learn which factors impact the load calculation the most.*
- *Discuss allowable variances in load calculations for verification.*

Due to time limitations, an Overview of the Principles of the manual will be covered.

This is not a Manual J Software, Manual S Selection/Report, or Manual D duct sizing/layout class.

**Present by
Chris Morin**

currently the Eastern MA and RI Regional Sales Manager for America's leading heat pump manufacturer: Mitsubishi Electric Trane HVAC US. [Chris Morin](#) is also a World Coach Institute (WCI) Certified Professional Coach, and the Author, Owner & Founder of the popular HVAC Pro Blog. For Advice with Residential HVAC System Design, Quality Installation, and System Diagnosis, you can find Chris' Articles on [HVACProBlog.com](#), Exclusive Member Content on [Patreon](#), or popular social media outlets [Facebook](#), [LinkedIn](#), [Twitter](#) and [Youtube](#).

Robert Berger is inviting you to a scheduled Zoom meeting.
